

Online Professional Development

Tech Tools for 21st Century Learning - Lateral Entry (Online/Ongoing Jan-Mar 2016)

Registration Fee: \$45

This course addresses teaching and learning in the digital age, integrating media and technology in the classroom, and the use of computers in the classroom. It can be used for lateral entry technology credits or literacy renewal credits since it will relate to the teacher's specific content area. The course begins January 1, and it is ongoing. Tina Joyner, Technology Coordinator, will facilitate this course. If you have questions, contact Tina at 828.774.5681, ext. 19, or tjoyner@wresa.org.

Foundations of Reading Test Preparation Course (Online/Ongoing Jan-Mar 2016)

Registration Fee: \$75

Effective October 1, 2014, The Foundations of Reading and General Curriculum test will be required for those seeking a K-6 license. This online course will prepare pre-service and teachers new to NC for the Foundations of Reading test. Activities, strategies, background reading, vocabulary study, practice questions, and resources will be provided in each of the tested areas: foundations of reading development, development of reading comprehension, reading assessment and instruction, and integration of knowledge and understanding. Karen Sumner, Elementary Curriculum/PD Coordinator, will facilitate this online, self-paced course. If you have questions, contact her at 828.774.5681, ext. 26 or ksumner@wresa.org.
